

# A Trip to the Pharmacy

# What is Medicine?

A doctor writes a prescription for medicine to help someone who is sick get better. Medicines come in different forms - liquids, pills, capsules, creams and drops.

To get the medicine you need you will go to a pharmacy.

# Who is a Pharmacist?

A pharmacist is a medicine expert. They work in the pharmacy.  
They give medicine to people when a doctor says they need it to make  
them feel better.

# Pharmacists

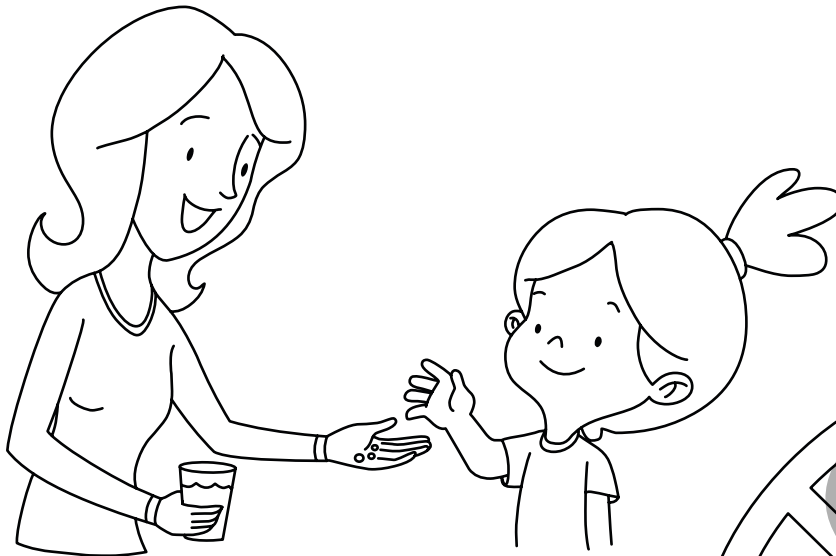

## Teach Us How to Take Medicine

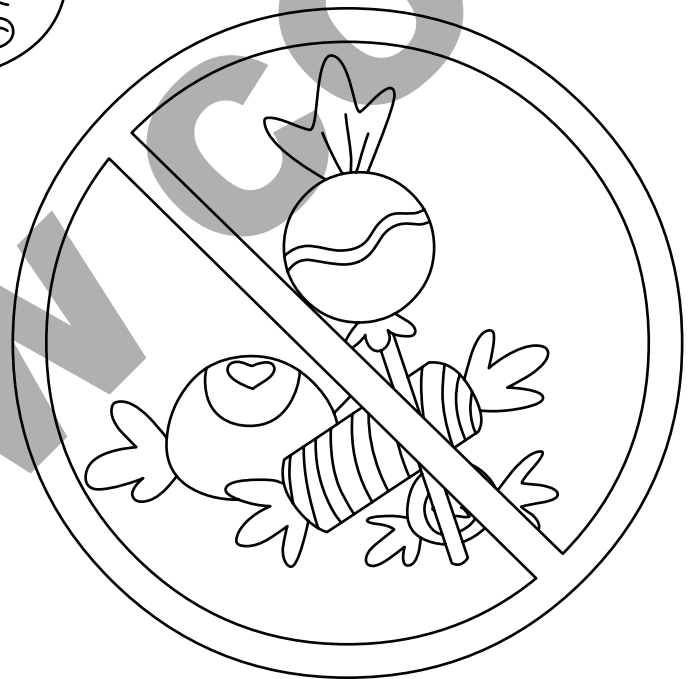

They answer important questions about medication.

# Medicine Can Be Dangerous!

Medicine can hurt you if you don't take it the right way.

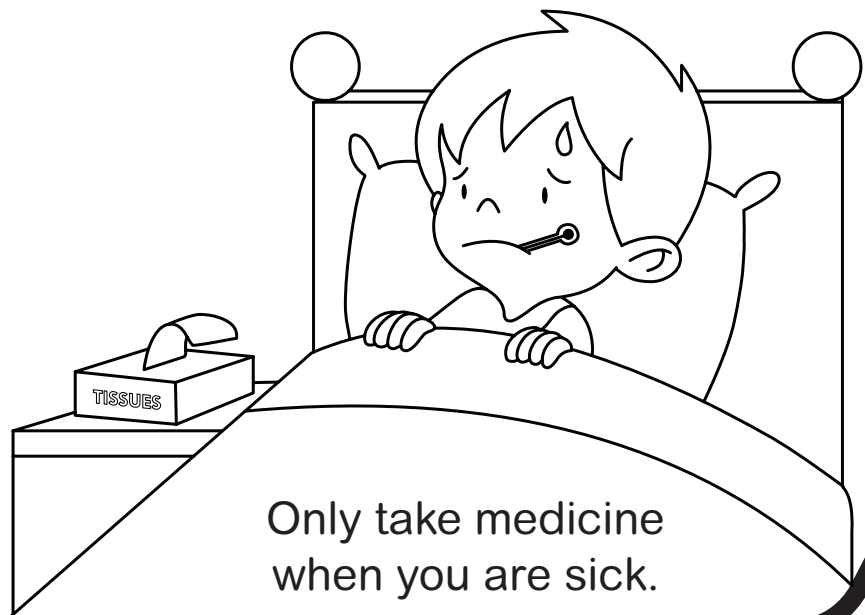

Only take medicine given to you by a parent or an adult you trust.

Medicine is **NOT** candy!

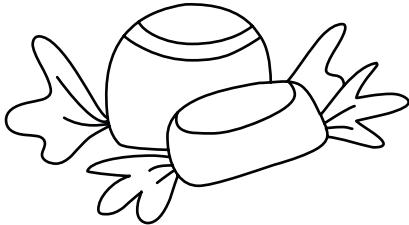

Never take medicine meant for someone else.

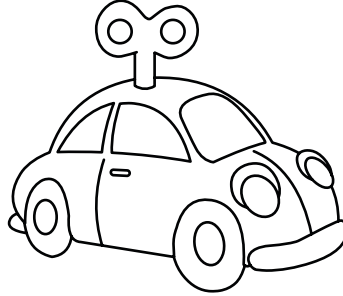

Only take medicine when you are sick.
